## SEMINARS / TRAININGS / WORKSHOPS

<b>Training on Data Analytics</b>	Institute Name: Internship Studio	18 Jul, 2024 - 19 Aug, 2024
<b>Key Skills:</b> Ms-Excel, SQL, Python - Numpy, Pandas		
I have successfully completed training in Data Analytics, where I developed practical skills in data manipulation, analysis, and visualization. The training covered: NumPy: Learned to perform high-performance numerical computations and work with multi-dimensional arrays. Pandas: Gained expertise in data wrangling, cleaning, and analysis using DataFrames and Series. MS Excel: Acquired proficiency in functions, formulas, pivot tables, charts, and basic data visualization. SQL: Learned to retrieve, manipulate, and analyze data from relational databases using queries, joins, filtering, and aggregations. This training provided me with a strong foundation to analyze and interpret data effectively for decision-making.
